ABOUT US

THE BROOKS HIRE STORY

Brooks Hire is the largest privately owned construction equipment hire company in Australia. We specialise in the supply of equipment to the civil and mining industries.

1979 | The Beginning

Brooks Hire Service was established in 1979 when Doug Brooks purchased two unservicable compressors on bankcard.

Brooks Hire Service is 100% Australian owned and operated. We've built our reputation of reliability and integrity from our humble beginnings in 1979.

We act with honesty and focus on building strong relationships with our clients, from large public companies, to smaller private customers. This ensures that we understand every client's needs. We aim to exceed expectations.

1993 | Moving upwards

Brooks Hire purchase a new premises in Canning Vale. The yard was a blank canvas and Doug purpose built the infrastructure to accommodate the growing business. Our first WA600 Wheel Loader is purchased.

1982 | First mobile plant

An 8 tonne JEC crane was purchased by tender in 1982, At the time, Doug was operating the business from a shed at Eneabba and living in a humpy at the back of the shed while also working locally as a fitter.

1987 | The first branch

Doug & Roma Brooks open the first Brooks Hire branch in Hogarth Street, Cannington WA and hire their first apprentice.

2002 | Stuart joins the team

Stuart Brooks joined the family business in 2002 as an Apprentice Plant Mechanic before moving into the Hire Department. Today Stuart is the Managing Director.

1997 | A milestone

Brooks Hire reaches 100 machines on hire!

2000 | A Family Business

Eldest son, Keith Brooks (left) and cousin Steve Drage join the team as Apprentice Plant Mechanics. They are now Service Manager, and Field Service Manager respectively.

2009 | A Second Branch

Brooks Hire opens their second branch, in Karratha WA.

2014 | Brooks Goes East

Brooks Hire expands to the Northern Territory and New South Wales with new branches in Darwin and Sydney. New branches open in Brisbane, QLD and Port Hedland, WA.

2012 | Lenore Brooks comes aboard

After completing her Commerce Degree, Lenore Brooks joined the Brooks Hire Team. Today Lenore is our Hire Manager.

2015 | Growth Fuels Growth

Brooks Hire opens 4 new branches in Melbourne, Toowoomba, Kalgoorlie and Newman.

2013 | Brooks Goes Interstate

Brooks Hire expands to Dalby, Queensland and reaches 500 machines on hire.

2016 | National Coverage

Brooks Hire expands to South Australia giving us Australia wide coverage. A new branch opens in Bunbury WA.

2019 | 40 Years In Business

Doug & Roma celebrate 40 years in business. Brooks Hire grows to include over 3,000 pieces of hire equipment Australia wide.

2021 | New Divisions

Brooks Equipment Sales opens, offering our clients new & used equipment for sale. Brooks Access also opens with a range of access equipment for hire.

2020 | Powering Forward

Three new branches open in 2020, Mackay, Port Augusta, and Albany, bringing us to 16 branches nationwide. Brooks Transport Service is established.

Brooks Hire Service is certified to ISO 9001:2015, ISO 14001:2015 and AS-NZS 4801:2001 Standard.

Based on our reliability and trusted reputation, Brooks Hire has now grown to include 17 branches Australia wide, with over 5000 pieces of equipment for hire. We are ready to meet your requirements so that you can start your job on time, every time. We deliver WHAT you need, WHERE you need it, WHEN you need it.

Why Choose Brooks?

From start to finish, Brooks Hire has developed a smooth process to make your hire experience as seamless as possible.

Our online quote and order system makes it quick and easy to choose the equipment you need. We have branches operating in every state and can facilitate equipment delivery to any jobsite in Australia. We offer a 24 hour, 7 days a week service and have a team of experienced heavy diesel mechanics and parts interpreters ready to be of assistance.

That's why you're 'Better being with Brooks'.

Brooks Transport

The Evolution of Brooks Transport

1980's

The first piece of mobile machinery that was ever purchased by Brooks Hire Service was an 8 tonne JEC crane. The machine was located in Perth, and it needed to be transported to Eneabba, some 300kms away. Unable to afford the cost of transport, Doug Brooks decided to drive the crane there himself. After a near miss with a passing truck, it was clear to Doug that he needed to come up with a safe and affordable way to transport his machines.

A short time after this, Brooks Hire Service invested in their first prime mover, a White Road Commander. As the business grew, so did their fleet of trucks.

1990's

2000's

2010's

Fast forward to 2020 and it was clear that Brooks Hire Service now had the capacity to branch out and establish a national transport business in its own right. Four brand new Volvo FH540 6x4 prime movers were purchased along with several custom made low loader trailers. These vehicles joined the existing fleet of prime movers, tilt tray trucks, and tipper trucks to form Brooks Transport.

2020

Brooks Transport is no longer limited to only transporting our own machines. We have the capability to provide a fully rounded freight service for any type of cargo, to any location in Australia.

Heavy Haulage Australia Wide

In addition to our heavy prime mover and low loader transport service, Brooks Transport also offer tipper trucks, side tippers, freight trucks, tilt trays, trailers, and dolly trailers for hire.

Brooks Equipment

Brooks Equipment was formed following repeated customer enquiry to purchase construction machinery.

This branch of the Brooks Group specialises in the sale of new and used construction equipment.

We have forged alliances with trusted manufacturers such as Husqvarna Construction, Italdem, Genmac, CompAir, and Chicago Pneumatic to bring our customers a range of quality equipment.

In addition to the sale of new construction equipment, Brooks Equipment also offers our customers a range of used earthmoving plant.

New parts, used parts, and finance options are also available to our clients.

Quality brands backed by quality service.

Brooks Equipment is proud to be an Authorised Agent for the following brands..

Civil Contractors Federation

Brooks Hire has been a member of the Civil Contractor Federation since the early days. Being a member throughout our company's growth has shaped the way we do business with our civil clients. We know the industry well and continue to provide an excellent service to the civil construction industry throughout Australia. We also sponsor the Golf Day and Earth Awards annually.

QUALITY ASSURED

ISO 9001
BUREAU VERITAS
Certification

Our commitment to meet customer satisfaction and legal requirements in the industry.

ISO 9001 - Quality Management System (QMS)

Brooks Hire Service has voluntarily undertaken the requirements to achieve an ISO 9001 Certification. This certification requires that we meet at least five mandatory requirements for a QMS:

The Bureau Veritas Certification certificate is recognised as a symbol of excellence worldwide. It demonstrates our achievement and continued commitment to conduct our business in a thoroughly professional and consistent manner.

- General Quality Management System**
Production of a Quality Manual, Control Documents, and Control of Records.
- Management Responsibility**
Commitment to customer focus, defining responsibility, authority & communication.
- Resource Management**
Competence, awareness and training for human resources and work environment.
- Product Realisation**
The provision to plan, create and supply a service.
- Measurement, Analysis & Improvement**
Assessment of customer satisfaction, internal auditing & taking corrective actions.

Health and Safety

Safety is the number one priority in our workplace. Brooks Hire Service is committed to the ongoing improvement of safety in our workplace.

AS/NZS 4801

BUREAU VERITAS
Certification

AS/NZS 4801 - Occupational Health and Safety Management System

This certification demonstrates our knowledge and control over hazards and risks present in the workplace. Our compliance ensures that we implement practical policies and objectives to manage the health and safety of our employees. The benefits of this certification are:

- **Encourages A Culture Of Safety**
 Staff are educated on safety policies and actively follow procedures.
- **Reduces Workplace Incidents**
 A proper Safety Plan provides greater control over potential hazards.
- **Enhances Our Reputation**
 As a safe and reliable partner, contractor & supplier.
- **Demonstrates Our Commitment**
 To ongoing improvement of safety performance.

HYBRID EXCAVATOR INVESTMENT SET TO PAY OFF FOR WA'S BROOKS HIRE

Above Left: Colin Brondie, WA Construction & Utility Sales Manager, Grant Meehanert, WA Business Development Manager, Construction & Quarry, Doug Brooks, President, Brooks Hire And Larry Brooks, Business Graduate Brooks Hire And Also Doug's Daughter Receive A Commemorative Plaque For Purchasing Two Komatsu Hybrid Excavators

WITH THE RECENT PASSING OF THE FEDERAL GOVERNMENT'S CARBON TAX LEGISLATION TECHNOLOGY SUCH AS KOMATSU'S HYBRID EXCAVATORS IS LIKELY TO BECOME MORE SOUGHT AFTER, ACCORDING TO DOUG BROOKS, OWNER OF WESTERN AUSTRALIA BASED PLANT HIRE SPECIALIST BROOKS HIRE. The company - one of the largest Komatsu fleet owners in Australia with around 250 Komatsu units out of a total fleet size of 500 - has recently taken delivery of four HB255LC-1 Hybrid excavators, part of what Brooks sees as "the way of the future".

Given WA's mining boom, there is no shortage of work for any of Brooks Hire's equipment, but he believes the Hybrids will be a good investment for the future.

"Right now, things are pretty busy, but when things slack off again, they're good to have in our fleet giving us a bit of an edge on our competitors," Doug said.

"I think in time to come that they will be sought after, especially as more contracts are drawn up with environmental issues in mind and the carbon tax is implemented. "Now that the carbon tax legislation has been passed, as it filters down to the industry, I think there will be more and more organisations, especially government departments and bigger companies that want carbon tax credits - and technology like the Hybrids has to tick the boxes for it," he said.

"It's definitely a step in the right direction."

One of Brooks Hire's Hybrids is on hire to a customer in the Pilbara region of WA, with another working for Alcoa to the south of Perth, and according to Brooks are delivering significant fuel savings to his clients.

"They are achieving about 9 litres an hour, so compared to a conventional machine which is up to 14 litres an hour. As they pay for the fuel, that's saving them well over a drum a week, which they are pretty happy about," he said.

"But it's not just the cost per litre of the fuel. If you can save a tanker fuel run a week, that's another transport and delivery saving you are potentially making."

"Saving a drum of fuel a week, that's \$200 at current prices by the time it's in the machine. Multiply that by 52 weeks a year, then the eight to nine years you have the machine for, and it's paid for itself. "These figures are very encouraging."

Based on his experiences, Doug is looking forward to seeing the Hybrid technology come to other types of earthmoving equipment.

"Komatsu needs a pat on the back for developing the Hybrid excavator technology, and I would like to see it implemented in trucks and other equipment," he said.

www.brookshire.com.au

Brooks Hire Service are industry leaders when it comes to taking a proactive approach to environmental sustainability. Our company was one of the first plant hire companies in Australia to invest in Hybrid machinery which reduce fuel consumption and CO2 emissions. The majority of all of our new equipment purchased are fitted with the latest Tier 4 engines which adhere to the strictest EPA emissions requirements. In addition we've been actively reducing our own power consumption by installing solar panels and LED lighting at our branches.

ISO 14001 - Environmental Management System

ISO 14001 is the international standard that specifies requirements for an effective Environmental Management System (EMS). Brooks Hire Service voluntarily acquired this certification and adhere to strict compliance obligations focusing on reducing waste and improving resource efficiency.

COMMUNITY

The Brooks Hire philosophy involves contributing to the foundations of the community around us. As an Australian family owned and operated business, we are committed to 'giving back' to our fellow Australians.

We support many charity groups, voluntary organisations, community groups and sporting clubs at a grass roots level, fostering community spirit and engagement. From providing donations to lending our machinery, our involvement with the community stretches far and wide.

The Big Blue Digger Project

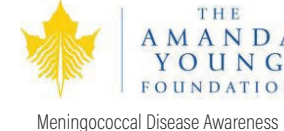

Proudly supporting

Brooks Hire Service is proud to announce the 'Big Blue Digger' project in conjunction with Ronald McDonald House Charities WA. Ronald McDonald House Charities offers support and essential care to the families of sick children, particularly those who live in remote locations.

We purchased this brand new Komatsu PC200 Excavator and have pledged to donate part of the hire rate to RMHC WA for every hour that it's on hire.

Just some of the groups we support

The Great Harley Davidson Draw

In 2003, Doug Brooks came up with the initiative to reward his valued clients every year with the chance to win a brand new Harley Davidson motorcycle. Every invoice over \$300 would go in the draw with the chance to win.

The great Harley Davidson Draw became synonymous with the annual Brooks Hire Christmas party, as did Doug's famous burnouts.

To date, Brooks Hire has given away 18 Harley Davidson motorcycles and the tradition looks set to continue.

Doug Brooks (left) and senior staff members Joy Fishwick, Peter Ryan and Dirk Kapiteyn admire the prize Harley-Davidson.
