BROOKS

TRANSPORT

HOW DID IT ALL BEGIN...

Brooks Transport is a division of Brooks Hire which was established in 1979 by Doug Brooks. Back then, as a long haired teenager, Doug decided to take a risk and borrow money to buy 2 dismantled compressors, which he fixed and started hiring out. What started as 2 compressors on hire, soon turned into 12 pumps on hire. At the time, Doug was operating the business out of a shed in Eneabba while living in a humpy at the back of the shed and also working locally as a fitter. He used his F350 truck to deliver his pumps and compressors to job sites.

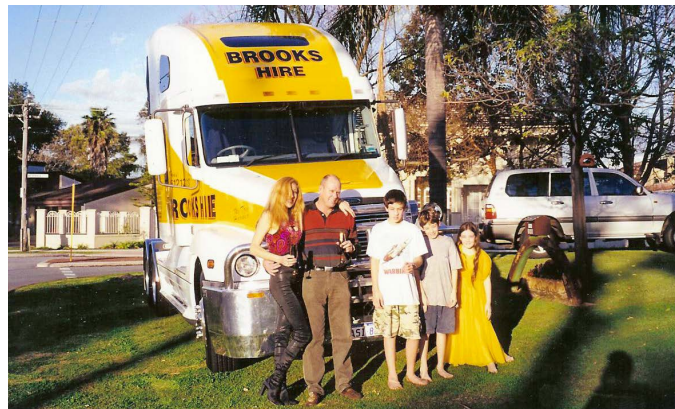

In 1982, Doug Brooks purchased his first piece of large mobile equipment, an 8 tonne JEC crane. The problem was, that the machine was located in Perth, and he needed to get it to Eneabba, some 300kms away. Unable to afford the cost of transport, and unable to fit the crane on the back of his F350, Doug decided to drive the crane there himself. After a slow and grueling 13 hour drive, and a near miss with a passing truck, Doug decided that he needed to come up with a safe and efficient way to transport his machines. This is when the decision was made to purchase his own truck.

100% Australian owned & operated since 1979

It was some years later that Doug purchased his second truck, and then the third. By this time, his business had grown too big for his shed in Eneabba, and he built his own premises in Coulson Way, Canning Vale. His family was also growing with the addition of his wife Roma, sons Keith and Stuart, and daughter Lenore.

Today the company has grown to be Australia's largest privately owned equipment hire business and is still being operated by Doug Brooks and his family. We are proud to be 100% Australian family owned and operated with a fleet of transport vehicles all over Australia.

BROOKS

Brooks group of companies recognises and respects the importance of Indigenous people's culture, heritage and traditional rights and supports the protection of Indigenous cultural heritage sites.

Brooks are committed to working with our clients to achieve cultural awareness by ensuring:

- All personnel working under Brooks management control are aware and respectful of culturally sensitive areas on site;
- Work activities will not impact on culturally sensitive areas; and relationships with Indigenous Australians are based on equality, respect, trust, honesty and openness.
- Brooks group of companies promotes local employment opportunities and continues to create a culturally inclusive workplace.

BROOKS FORMED A JOINT VENTURE WITH OLIVE BRANCH RESOURCES

Olive Branch Resources (OBR) is a 100% Aboriginal owned Mining Service Contractor and a subsidiary of Olive Branch Enterprise (a 100% Aboriginal family owned and operated business, founded by Timothy Champion Snr. in 2019).

Brooks' partnership and joint venture with OBR looks to highlight and preserve Aboriginal culture and heritage in the industry and provide fair employment opportunities and professional development for Indigenous Australians.

Recently, Brooks commissioned the services of talented Indigenous artist, Sister Danielle Champion to design an artwork for our new Volvo prime mover. The piece is called "The Seven Sisters", and has a special Indigenous story behind it.

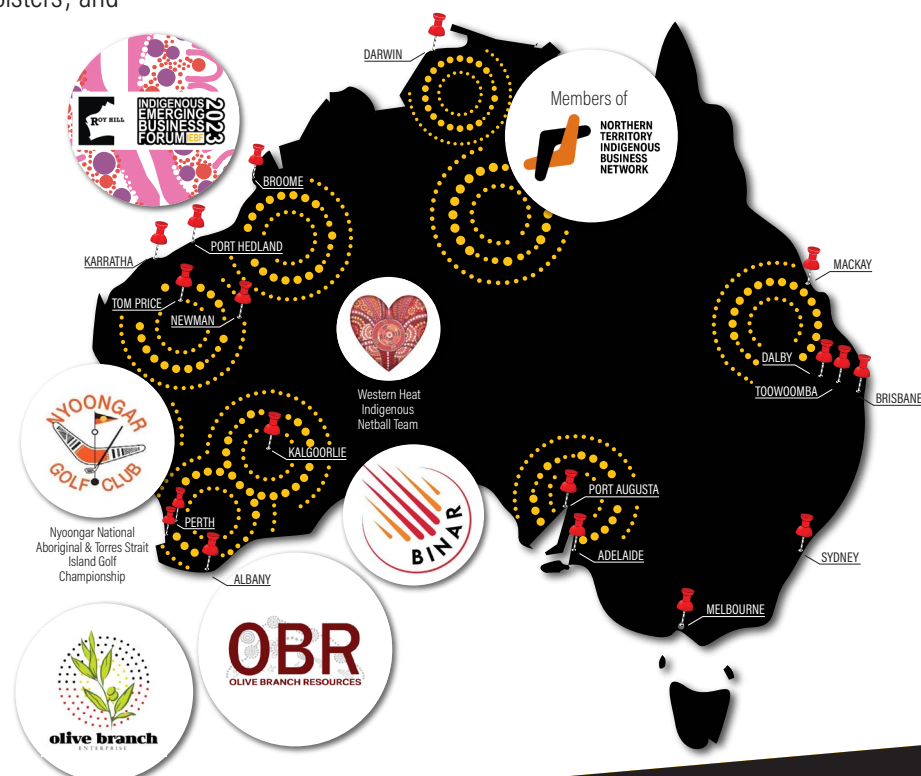

The artwork was also applied to one of the Brooks Access telehandlers with the purpose of donating part proceeds of its hire rate to **Binar Future** - an Aboriginal Youth Support Program, which engages Aboriginal youth, promotes healthier lives, and develops more resilient and empowered young people who can build positive futures.

Just some of the Indigenous organisations & communities we support:

Sister Danielle Champion (OBE COO) - left
and Lenore Brooks (Brooks CBO)
